EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In line 2 of each of claims 4, 12 and 18, "(DCD)." has been changed to "(DCD) from said timing jitter.". See the amendments of claims 5, 13 and 19.

2. The following is an examiner's statement of reasons for allowance: the prior art fails to show or suggest a method of or a test and measurement device for decomposing timing jitter on a signal under test of an arbitrary serial data stream by measuring a timing jitter value and an associated bit pattern representing bits falling within an analysis window of a chosen length, wherein the analysis window being successively located at a plurality of positions within the signal under test and performing a statistical analysis on the measurements to calculate a mean value of inter-symbol interference associated with each pattern.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
